Hiring Committee
Deutsche Bank Berlin Technology Centre
Berlin, Germany

**SUBJECT: DEUTSCHE BANK GRADUATE PROGRAMME IN
BERLIN TECHNOLOGY CENTRE 2025**

Dear Hiring Committee,

I am thrilled to apply for the 2025 Deutsche Bank Graduate Programme at the Berlin Technology Centre. With a background in Information Technology and recent experience as a mobile developer at OnlineMover in Tunisia, which I began in September 2024, I am excited to contribute my skills to Deutsche Bank's forward-thinking technology initiatives. In my current role at OnlineMover, I am responsible for developing a mobile version of the company's website, optimizing user experience, managing front-end design, and ensuring seamless backend integration—an experience that has sharpened my technical and project management abilities.

My foundation in languages like Java and TypeScript, along with software testing and architectural principles, has prepared me well for a role in Deutsche Bank's Technology, Data, and Innovation division. I have also been an active member in the Google Developers Student Club at my university and I attended several events and participated in several workshops in the IT domain during my studies.

Thank you for considering my application. I am eager to bring my background in mobile development to Deutsche Bank and to support the bank's pioneering projects in the industry.

Warm regards,

Achraf Hafsia
